The Putnam County Emergency Services Safety Advisory Board (ESSAB) is being established to address specific and general safety concerns by our County Fire, EMS and Police Agencies. The Board will make its recommendations to the Commissioner of Emergency Services, County Executive's office as well as the Putnam County Legislature. The Board will be comprised of Fire, EMS and Police representatives, code officials, persons with legal experience and concerned citizens.

Please describe your relevant experience and or why you would like to serve on this Board. Please note that actual experience may not be as important as a willingness to serve and the desire to make Putnam County a safe place for residents as well as Emergency Responders.
